PROFESSIONAL SUMMARY

SOFTWARE DEVELOPER | FULL STACK

Software developer with 3+ years of experience in web applications, API integration and process automation. Hands-on experience with React, TypeScript, Node.js, Python and databases, from requirements analysis through deployment and maintenance. Background in internal tools, reporting and Agile teamwork. Currently pursuing software engineering studies.

TOOLS & TECHNOLOGIES

- **Languages:** TypeScript, JavaScript, Python, Java, SQL, Bash, SAP ABAP
- **Web & desktop:** React, Next.js, Node.js, Electron, HTML, CSS, Tailwind CSS
- **Data & integration:** REST APIs, PostgreSQL, MySQL, MongoDB, Supabase, Firebase
- **Infrastructure:** Git, GitHub Actions, CI/CD, Docker, AWS (EC2, S3), Linux
- **Practices & analytics:** OOP, Agile Scrum, documentation, Power BI, advanced Excel

PROFESSIONAL EXPERIENCE

Marketing Engineer (Paid Media & Automation)
Fanger Design - Buenos Aires, Argentina | 2025 - Present

- Develop scripts to automate operational tasks and maintain websites and internal data.
- Analyze and optimize Google Ads and Meta Ads campaigns against each client's business objectives.

IT Operations & Automation Specialist
Codere - Buenos Aires, Argentina | 2019 - 2025

- Developed Python-based internal applications, integrating REST APIs and databases for operational reporting.
- Automated Power BI and Excel dashboards; supported AWS/Docker deployments, IT operations and documentation.

Front-End Developer
Ilummi - Remote | 2021 - 2025

- Built React and TypeScript applications, integrating APIs, MySQL and Firebase/Supabase.
- Created Recharts/D3.js dashboards and CI/CD pipelines with GitHub Actions and AWS in Agile teams.

SELECTED PROJECTS

- **MIM:** Designed a desktop and web application with a modular, event-driven architecture, crash diagnosis and offline-first data synchronization. Independently developed, currently in beta. Electron, TypeScript, React, PostgreSQL.
- **Smart Scan:** Developing a file explorer with local AI-powered semantic search, indexing that preserves original files, multimedia previews and format conversion. TypeScript, Node.js.

EDUCATION

Software Engineering Studies (in progress)
Universidad Nacional de La Matanza | 2023 - Present

Diploma in SAP ABAP Programming
Universidad Tecnológica Nacional | 2025

CERTIFICATIONS

JavaScript Development · Advanced Backend Development · Java Development
Data Analytics · Web Development · Fundamentals of Artificial Intelligence
